	Unit 3 Crimes scene to courtroom								

<p>How does this year deliver your curriculum intent?</p>	<p>Student inquisitiveness of the world around them is driven through the investigation of theoretical and research concepts whilst allowing students to embrace authentic and real-life learning in the classroom to enrich and enhance student interests. This year will build independence and specialisms which stem from own student's enthusiasm and allow students to see the impact of the subject on society. Students will be encouraged to challenge pre-conceived ideas around community and human behaviour, making authentic connections between the disciplines of biology, psychology, and sociology.</p>
