How does this year deliver your curriculum intent?		Development of all musical skills; listening, composing/arranging, performing and ICT. These are all skills for the GCSE Music and work towards all components of the GCSE. The course enables delivery of a broad and variable range of Music to enable students to discover and develop new skills for their musicianship and wider understanding of music in context. Students will enhance their skills around performing in ensembles as well as a solo. Students will develop their compositional skills in response to a given brief that fit the current climate/culture around them. Students will further develop their cultural awareness through study of a Haydn Symphony.
