

Delivering exceptional learning experiences
that enable all young people to
thrive in a competitive world and lead
successful and fulfilling lives.

THE HIGHEST
STANDARDS

Always set and deliver
the highest standards:
never settle for less.

INVEST TO
ACHIEVE

Care about the now;
create the very best for
your future.

EVERYONE IS
VALUED

We are unique individuals working together to be the best.

**NO
EXCUSES**

Create solutions,
not excuses.

**NEVER
GIVE UP**

Resilience is essential;
self-belief drives
improvement.

CULTIVATE YOUR CHARACTER

Qualifications open doors; your character gets you through them.

	Water and Carbon: What are the major factors that drive the magnitude of water and carbon stores?								
How does this year deliver your curriculum intent?		This is the first year of A level study. Each lesson will be challenging and well-structured so that you can make progress towards an A* grade. Your teachers are highly experienced assessors of the A level and so you will receive focused guidance to ensure that you make excellent progress. The geographical content is wide ranging and you will be required, for example, to build your knowledge of global institutions such as the EU, complex physical processes within the lithosphere and the nuanced interactions that take place within the atmosphere.
